NATALIA DENEGRI

Natalia, gracias por permitir a VIP 305 que te haga esta entrevista, antes que nada muchas felicidades por tus dos premios EMMY.

Entrevistamos a la reconocida actriz, presentadora argentina Natalia Denegri que esta conquistando Miami con paso firmes, flamante ganadora de dos premios EMMY en la ceremonia que se llevó a cabo en Orlando, Florida. Uno de rubro Documental de Interés General por su trabajo RCTV, 10 años después y otro por Buscando a Dios, en el rubro Programa Religioso.

Cuéntanos que sentiste en ese momento que te nombraron ganadora en tus dos nominaciones?

La gloriosa noche inició con el premio en la categoría Documental Interés General por RCTV, 10 años después. Un trabajo humano y esperanzador que muestra la suerte de los trabajadores de Radio Caracas Televisión, el canal pionero de Venezuela, tras una década de su salida del aire por orden del ex presidente Hugo Chávez.

Y como si no bastase, llegó la segunda distinción por Buscando a Dios en el rubro Programa Religioso. Se trata de una hermosa historia de un hombre que, tras ser diagnosticado de cáncer, promete a Dios recorrer una iglesia diferente cada domingo durante todo el año.

Aún no lo puedo creer,estoy viviendo un gran sueño ,tengo tres premios Emmys ya en casa y dos de ellos dedicados a mis hermanos venezolanos.

Agradecida con la academia de televisión por valorar nuestro producto y el esfuerzo.

Y dedicárselo además a mi familia y a mi niña Nicole de tres años que es la luz de mi vida!!!!

Sabemos que desde hace un tiempo atrás está radicada en Miami y que has estado con mucho trabajo con tu programa corazones guerreros y que escribiste un libro bajo el mismo nombre, cuéntanos qué significa corazones guerreros?

Corazones Guerreros significa la concreción de un sueño. Quise plasmar en papel algunas de las historias que tuve en mi programa que también se llama Corazones Guerreros, que se emite en la televisión de Estados Unidos y que ya va por su quinta temporada. El espíritu del programa es mostrar que se puede salir adelante incluso ante las más difíciles adversidades, como lo demostraron los entrevistados. Personas que han atravesado situaciones límite en su vida, que tienen capacidades diferentes, en fin, verdaderas historias de vida. Por eso, inspirada en algunas de las personas que entrevisté, escribí mi primer libro, que tuve el honor de presentarlo en la Casa Argentina en Roma y luego en Venecia.

Tu premio Emmy en el 2015 fue por el documental de " Doble Exilio" imposible no preguntarte de qué se trata el documental.

Doble Exilio trata sobre la difícil situación que viven nuestros hermanos venezolanos, Expulsados de su país, atravesando un momento muy duro. Con presos políticos, prohibiciones, pobreza extrema, etc. Con mi documental les di voz a quienes se la quitaron en su propio país.

Aparte de ese premio Emmy que otras nominaciones y premios te ha regalado esta carrera ?

Vale aclarar que no son regalos precisamente. No me fue nada fácil y aún hoy mi lucha continúa. Estoy en un país que, a pesar de que siempre me trató de maravillas, no es el mío. Tener un lugar en los medios no fue fruto de la casualidad ni de la suerte, sino de un trabajo constante acompañado por mucha formación, disciplina y debo decir que también mucha insistencia ...

Con todos estos desastres naturales que han pasado últimamente, sabemos que has estado muy involucrada con la ayuda principalmente a Puerto Rico, como podríamos convocar nuestra juventud a integrarse más en ayudar al prójimo?

Lo de Puerto Rico fue un desastre natural espantoso y no pude quedarme con el lamento. Había que poner manos a la obra y así lo hice. Tuve la enorme ayuda de la Fundación Hassenfeld que apenas le propuse esta gran acción, me dijeron que sí. Pudimos ir con 2 aviones de ayuda humanitaria, los que al regreso trajimos a 300 enfermos para trasladar a hospitales, entre ellos, ancianos y bebés. Hubo casos de urgencia que por suerte pudimos resolver. Llevamos medicinas, insumos, pañales, leche para bebés, ropa.

Igualmente, siento que no fue suficiente y de eso me dí cuenta cuando llegué al lugar. Es importante involucrarse y más que importante, es gratificante.

Cuando estuviste en Roma tuviste la oportunidad de ver al papa Francisco? Cuéntanos qué opinas de el ?

Ese viaje fue un antes y un después en mi vida. Si bien yo soy muy creyente, el haber estado junto al Santo Padre fue conmovedor. Es imposible poner en palabras lo que produjo en mi. Es un ser diferente. Su mirada transmite sensaciones indescriptibles. Le dí mi libro y me dijo que ya sabía de qué se trataba. Encima es Argentino como yo. Doble emoción. Sus ojos transmiten bondad. Es un ser luminoso.

Tienes pensado en escribir otro libro ?

La satisfacción que me dio el primer libro me incentivó a escribir otro, y hace dos meses comencé a gestar un libro de consejos para mamás primerizas. Es un tema apasionante y de gran interés para esa situación tan difícil de las mujeres.

Además, voy a escribir mi segundo "Corazones Guerreros", contando más historias del programa y algunas que aún no se transmitieron.

Nuestra revista la leen en su mayoría muchachos jóvenes qué consejo le darías tú a ellos para llegar a sus metas deseadas en la vida?

No soy quien para dar consejos, puedo ser sí una amiga que de igual a igual cuenta su propia experiencia y eso tal ves sea un estímulo.

Nada es fácil. Hay muchas frustraciones en el medio que son verdaderas pruebas de fuego. Si uno tiene ganas, se esfuerza hasta lograr los objetivos. El esfuerzo incluye no rendirse, enfrentarse muchas veces a injusticias, insistir y prepararse....La cuota de suerte puede hacer lo suyo pero sin el resto, no sirve de nada.

La disciplina, la perseverancia son factores importantes cuando uno se pone metas en la vida, que crees el factor suerte? Es algo a lo que también tenemos que estar preparados?

Lo contesté en la pregunta anterior. Pero puedo explayarme diciendo que todos tenemos momentos de suerte de la misma manera que a todos también en algún momento se nos acaba. Si uno tiene sólo eso, es muy difícil remontar la situación, en cambio si a la suerte la dotamos de todo lo que antes describí, casi diría que es una fórmula probada.

No se encantaría saber cuáles son tus próximos proyectos tanto en la televisión como el cine y por supuesto si piensas escribir otro libro pronto.?

Proyectos siempre tengo, porque soy muy inquieta. Con mi empresa productora Trinitus Productions, estamos con un nuevo largometraje que en breve comenzaremos a filmar. La nueva temporada de Corazones Guerreros ya es un hecho. A eso hay que agregar la conclusión de los libros y también hay algo que estoy llevando a cabo, no lo voy a decir porque está en la primera etapa de armado. pero es un proyecto que cuando llegó a mis manos, me sorprendió por lo majestuoso. En la próxima entrevista, lo van a saber.

Muchas gracias nuevamente por darnos esta oportunidad de poder conocerte más a fondo y te deseamos muchos éxitos en tu carrera

Felicidades para todos. En mi país se desea salud, trabajo y amor. Este también es mi deseo para todos.

Principal
Ana García

1. When did you begin your position as principal?

I was hired to be the principal of Pace High School in 2004.

2. What did the first few days feel as principal?

My first few days were scary. I would sit on my desk and wonder how on earth I got here and do I really have all that I need to do this job and to really do the best for the students here at Monsignor Edward Pace High School.

3. What is your favorite day out of the whole school year and why?

There are quite a few, but I would have to tell you that my favorite event of the whole year is graduation. To be able to see the joy in the faces of the parents, to see the excitement and the pride in the students and their loved ones. A Lot of our parents are Alumni as well. So to see them reliving those moments in that day is kind of like a culmination of four years of hard work, of dedication, and of sacrifice for the families and for the students.

4. As principal how do you try to do things differently than other schools?

I won't compare to any other school, but I can tell you that what I try to do here in Pace is to help students learn that they are loved and that they are a gift. I always make sure we teach them the faith which is something very important in their lives.
Archbishop Wenski said this year in the opening mass for the teacher that, "We don't just teach academics and we don't just prepare kids to go to college. What we do is prepare kids to go to heaven." So I think for me, that is our most important mission, getting kids to become wonderful adults who excel all around and in the core they are good people.
Another thing that I like to do here in Pace is keep the family Atmosphere. I think when teenagers are happy and teenagers know they are cared about, that they are loved, they excel!

5. What are you most proud of in your school?

The students, the kids here. We have the most amazing kids at pace. They are smart, hardworking, loving and that makes me very proud.

6. How do you as principal like to engage with your students?

I like to participate in different events that we have, I like to be present. I make sure to attend football games and basketball games and volleyball games.
I like to be present in the things that are important for them. Homecoming and all of the different events. I participate in the homecoming pep rally every single year. This is an opportunity for the kids to see me in a different light and to be there for things they will remember down the road!

7. What is the best story you have that has ever happened in your school while you were principal?

I can be here all day but the moments when the seniors start receiving their letters of acceptance. When we see that they will be going off the college and that they have choices is amazing!

8. If you had no restrictions on what you can do to your school what would it be?

Make coming to this school free! So that everyone could come and receive the amazing education you will get here. One of the things that sticks out from every alumni that comes back is that they miss their time at Pace. They have had such an amazing time here and they have learned so much, but it's the sense of one family and the sense of that they were cared for. To be able to offer that to more students than what we have right now would be amazing. I know in many cases coming to school here is a financial restriction for some of the families.
So if their was one thing I would do is win the lottery or have a wonderful donor come in and just make it so that we can help those families who may not be financially ready to make this amazing sacrifice for their son or daughter.

a Sweet chance

As the holidays approach us, so many of us are opening our hearts and spreading kindness and generosity throughout. As this is the season of giving, A Sweet Chance, made up of two teen sisters, Jazmin and Erika Neadle, together with their mom, Eni P. Neadle, and long-time friends and co-founders, Janeris Marte and Favila Budyszewick, want to open up hearts even further. Not everyone can adopt or be a foster parent, but everyone can help a foster child/teen. There are hundreds of teens in Miami-Dade County alone and thousand in the State of Florida. A Sweet Chance is determined to make teens in foster care's future a little brighter. As this team of foster/adoptive teens and their moms prepare for the next event, they are hoping to spread awareness and raise funds. A Sweet Chance's goals are to honor teens in foster care by celebrating those special milestones in a teen's life and push them to graduate high school by giving them prizes and rewards as they accomplish their goals. A Sweet Chance started a GoFundMe page in order to raise funds to buy gifts for all the teens. 100% of all funds raised are for gifts and to help make their dreams come true. If you would like to help us raise money to make these teens' dreams come true, please donate to www.gofundme.com/asweetchance. Thank you.

Good Shepherd helping those in need for thanksgiving

Thanksgiving is all about giving back and Good Shepherd Catholic School did just that by collecting the essential Thanksgiving Holiday foods to give to those who are less fortunate. One week before thanksgiving the students gathered and made what a Thanksgiving basket for families who wouldn't be able to afford any food to have on the table for Thanksgiving. The recipients that received these donation baskets are very thankful for these young students help and are very happy they would be able to give thanks and celebrate this amazing holiday with their families with food they weren't expecting to have.

Columbus Welcomed Carl Chambert A French Exchange Student

Through the Inspired Gateways Exchange Student Program, we have welcomed Carl Chambert to Columbus for a 30 day cultural immersion experience. He will be living with 9th grader Lucas Valdes and his family. Carl is here to continue to learn the English and will be a regular student in classes for the duration of his stay. We thank our French teacher Mrs. Pugh who has played an integral role in offering this program at Columbus. Carl will be assisting Mrs. Pugh in her French classses, helping to educate our students on the French culture.

CCNN Live Wins 2 National Emmy Awards

CCNN Live is the recipient of two National Academy of Television Arts and Sciences (NATAS) Student Production Emmy Awards. The Emmys are first awarded on a regional basis, and then just three regional winners are chosen to compete for the National Emmy award. In the past, CCNN Live has won 12 regional Emmys, but this is the first time the group garners a National Emmy—the most exclusive award in television production. Columbus is also the only South Florida high school to win a National Emmy. The winning student submissions were: News Story (Light News) - Charlie's Path: Anthony Martinez '17 Danyel DeVilliers '17, Christopher Vazquez '17, Michael Suarez '17, Christopher Ahrendt '18, and Antonio Castellanos '18. Talent Demo Reel - Gonzalo Londono '18. Congratulations to all the winners and moderators Ms. Insua and Mr. Delgado.

PRADA'S BUNCH
a journey of love and adventure

My name is Silvia Mesa and I have a beautiful family of Golden Retrievers. Prada, the mom, is a Golden Retriever that had 8 puppies on January 1, 2015. Prada's Bunch is a wonderful family full of love and adventure! We love to share with our friends our everyday lives. Mami Prada is a cancer survivor and we are very grateful that she is well now, one year in remission, after two major surgeries and 6 rounds of chemotherapy.

Charlie and Lalique, are two years old and are two very mischievous children. Charlie is a Canine Good Citizen and Certified Pet Therapy member with Alliance of Therapy Dog, Inc. Charlie being very sweet and very gentle, allows him to visit nursery homes, West Kendall Baptist Hospital, Miami Children's Hospital, Baptist Children Hospital and Miami Dade Libraries. Lalique loves hats and pictures. Very soon Mami Prada and Lalique will be part of our Pet Therapy Dog Team.

Last year I made a calendar for 2017 with all the pictures I took thru the year of 2016. Thanks to the sale of the calendar I was able to donate $ 1,000.00 to Joshua House of Golden Retriever (www.jhgrr.com), a wonderful rescue organization in Tampa dedicated to save senior and sick Golden Retrievers. I went there personally to meet them and deliver our donation. They are truly a blessing to these dogs. With these funds we also helped our friends at Born Free Pet shelter in Miami (bornfreeshelter.org). This was our way of repaying all the blessings we received and all the help we got to save our Mami Prada.

This year I am selling our 2018 Prada's Bunch Calendars and hopefully I will be able to raise funds to give a substantial contribution two both recues. Please feel free to check our website www.pradas-bunch.com as well as our Facebook page "Prada's Bunch and Friends", as we love to bring laughter to our followers. We are looking forward to bringing happiness to many friends thru our journey and help as much as we can.

Sts. Peter and Paul Carnival

by Alli Pérez

Sts. Peter and Paul School just had their annual festival. It was full of exciting rides, delicious food, and amusing games. It lasted three days; from the 17th to the 19th. It was full of kids from every school and they all tried to avoid the teachers staring at them. This was one of their best years yet because of all the new stuff they had this year.

First of all, they took the rides up a notch. There were more extreme rides so I feel a bit bad for the little kids. These rides included the Zipper, the Freak Out, the Screamer, and the Ali baba. If you have a weak stomach, I don't recommend riding any of these. There was also a Ferris Wheel that you could take amazing pictures on and share with your friends.

Now, Stranger Things fans keep reading. At the pizza booth, they had a "Hopper Special." It was that Eggo special Hopper gave Eleven. It had whipped cream, kisses, reese's pieces, and Mike and Ike's. It also included a pizza and a drink. I had it myself and I felt like I could flip over trucks for a moment.

If you didn't visit the Festival this year, try again next year. They might make it even better. Who knows? Millie Bobby Brown might show up.

Belen Jesuit rode two titles by Aitor Fungairino to a fifth-place finish in the Class 3A FHSAA Boys Swimming Finals at Sailfish Splashpark Aquatic Athletics Center in Stuart on November 11. The Wolverines took fifth with 110 points, trailing the 320 points of champion Tallahassee Chiles.

Fungairino defended his two individual titles from 2016. He won the boys 500 freestyle in 4:25.73. He also won his second consecutive 200 freestyle title in 1:34.89, while teammate Andres Wong was fourth in 1:41.75. Wong was also second in the 100 freestyle in 47.45. The team also finished third in the 200 freestyle relay in 1:26.75.

Belen also won the Class 3A FHSAA Boys Cross Country Finals at Apalachee Regional Park in Tallahassee on November 11. The team scored 57 points to secure the championship. This is the programs 9th title.

Senior Joshua Collins finished in second place with a time of 15:39. He was followed by Lucas de la Hoz (16:32:23) in 16th Place, Adam Magoulas (16:32.61) in 17th Place, Sebastian Roa (16:34) in 18th Place, Cesar Aguzzi (16:38) in 21st Place, Diego Gomez (16:42) in 26th Place and Mathew Bryan (16:50) in 37th Place.

"Belen continues its tradition of championship cross country teams. Congratulations to Coaches Frankie Ruiz, Juan Rodriguez Rene Medina and our athletes for 'running to the fire' and living the magis," said School President Jesuit Father Willie García-Tuñón '87. "Twelve straight years with at least one state championship team, Belen Jesuit dominates at all levels."

ST. AGATHA SCHOOL GETS COOKING WITH A DAY OF PIG ROASTING FUN

Written by Nicole Varela

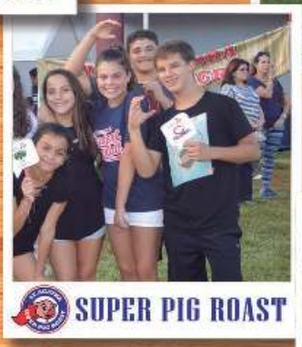

On November 4th, St. Agatha Catholic School held its 3rd Annual Pig Roast Event. This event was filled with friends, laughter, and delicious pork. As a student at St. Agatha School, I can say that this was our most exciting year yet. There were amazing burgers and desserts, accompanied with an ongoing water balloon contest, and pig-roasting by some of our St. Agatha families. The student council also played a major role in maintaining excitement at the Pig Roast.

In the afternoon we got to watch some of the faculty bob for apples. Before the bobbing for apples contest began, kids voted for the person they thought would win. In the end, the head of the cafeteria, Cirilo, won the apple-bobbing contest. Adding more excitement to the day, we got to laugh as some of our fellow classmates competed head-to-head in a pie-eating contest. Nearly all of middle school students gathered around to see who would eat the most pie in a pie-eating contest.

This event wouldn't be called the Pig Roast, if there wasn't any pork to eat. Later in the day, after all the competing teams finished cooking their pigs, the judges took to the stage. I was faced with the honor of being one of the Kid Choice judges. After trying all the mouthwatering pork, I was satisfied with how good they all tasted. But the day wasn't over yet, the time to announce the winners of our contest came shortly after. There were three categories, Kid's Choice, People's Choice, and the overall winners. However, out of the many awards, there were three teams who took the cake. The winner for the Kid's Choice was the Box Hoggers and for the People's Choice was the Team Pua. Third overall were the Box Hoggers, second overall was the SAS Cafe, and first overall was Team Pua. Even if there were only three teams who stood out upon the rest, they were all truly winners for roasting these delicious pigs. After this great experience, we are all very excited to see how we could make next year's pig roast successful once more.

SPECIAL CORNER

With the mission to provide support and services to parents and individuals with Down syndrome, as well as to bring awareness to the Miami-Dade community, Down Syndrome Association of Miami (DSAOM) hosted its first ever "Miracle Walk" in 2007. The walk was named for the street on which the event takes place, Miracle Mile. In what was originally conceptualized as a small event, organizers were blown away by the participation of over 2,000 proud families, friends, and supporters. The Miracle Walk was further supported by community leaders and advocates, countless online donors, over 40 "Platinum" and "Gold" level corporate sponsors, and several community volunteers. As it turned out, the walk was aptly named; it was in fact a Miracle. The event now takes place annually. This years was the 11th Annual Miracle Walk and 4th Annual 5k Run, which participants enjoyed complimentary food, refreshments, music, and entertainment. Donations benefit the DSAOM, which is a nonprofit charitable organization, who provide support and services to people with Down syndrome and their families throughout the Miami-Dade community. The mission of the DSAOM is to educate the community about Down syndrome and to promote positive acceptance of individuals living with Down syndrome. They strive to illustrate that living, learning, and working with individuals with Down syndrome is a natural part of the daily lives of every person in our community.

VIP SPORTS

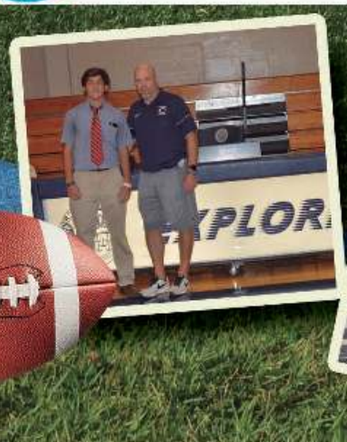

Anthony Arguelles

by: Erik Cartelle

Anthony Arguelles is a student at Christopher Columbus High School, who was the starting quarterback for the Explores this past season, and the ace of the Columbus baseball team this season. It was my honor to interview him, as many of his peers look up to him, for being a positive role of hard work and determination on and off the field. This two sport star athlete started playing sports at a very young age, allowing him to be well rounded and have many attributes which makes him successful. Arguelles is a leader, both quiet in doing his job, and also vocal not being afraid to get on and motivate his players to work hard resulting in success. Many people thought the Explores football team would not have a great season, but with the leadership of a bright quarterback and a quick receiver, the Explores proved the naysayers wrong. Arguelles elaborated on this point in our interview saying, "we knew we had talent and we felt confident in ourselves, and all the hard work we put in just translated on game day." After speaking to Columbus principal, Mr. David Pugh, it was obvious that Anthony Arguelles was star in all aspects of life not just when it came to sports. When I asked him how not only he managed to be gifted on the field but also gifted in the classroom, he gave such a humbling response, which showed his character and values as a person. He responded, "I just realize that I wouldn't be able to play on the field, if I don't do my work off the field and make sure my grades are in check." This showed me his love for sports and showed me what a true leader he is in not wanting to let his teammates down. Arguelles is looking at three universities, two being Tulane University in New Orleans and Samford University in Alabama. He is also looking to attend the University of South Alabama; where is brother Andy Arguelles, Columbus' ace in the 2016 season who did not lose a game and threw three no-hitters, currently attends playing Division I baseball. He has the hope of signing with one of these schools to play baseball, and a goal to try and walk-on the football team. The Explores tend to have a great baseball team every season, winning the state championship in 2015, being runner-ups in 2016, and going 22-2 and being favored to win it all yet falling short last season. Arguelles commented on the Explores successes after asking him on the state of this years team, "Well we always have a good team in baseball, I hope it turns out well because we are all working hard, and after we lost last year early on, we are ready to win a state championship. Anthony Arguelles is a proven leader on and off the field, and is a positive role model for all who know him. We here at VIP 305 wish him and the rest of Explores baseball team the best of luck this season. Adelante!

Pace collects over ton and a half of food for annual food drive

The Monsignor Edward Pace High School community continued its annual tradition of collecting food for its annual Tons of Love food drive. Beginning in October, Pace students, parents, teachers, staff, alumni, and friends began to gather non-perishable and canned food items to benefit the needy in South Florida. Similar to past years, the collected tally equaled over a ton and a half of food.

On November 17, the Pace student body celebrated their collective efforts in the annual Thanksgiving/Tons of Love Mass. Following the mass, the Pace community and student organizations were recognized for their service and for the aid that will benefit local organizations. The junior Class of 2019 also won the coveted Tons of Love trophy for the third year in a row as the class who donated the most food during the drive.
The food donated goes out to ministries, pantries, and food banks across South Florida.

ACC students celebrated Friendsgiving together

"Sincerely giving thanks not only helps us recognize our blessings, but it also unlocks the doors of heaven"

"Friendship is not about whom you have known the longest, it is about who came and never left your side"

" friends are the family you choose "

How important is Early Childhood Education?

Early education has a profound impact in a child's development and long-term results from a well-rounded foundation. I could assure parents, it is the best investment in their child's academic development for the years ahead. It is very important for the child to be in a challenging academic environment as well as one that does not hinder but stimulates the child's need for social development within his/her personal needs, own nature and personality. In a disciplined environment where respect and order is a priority, the sense of being you, capable, unique, and respectful of others, provides a child a safe learning environment with many activities to fulfill the child needs, strengthening their skills and abilities, and helping them with the challenging ones. They learn the importance of sharing, waiting, caring, helping and respecting others and the environment!

Our focus is the development of the whole child, their physical, social, emotional, and cognitive development. Our main areas are language, mathematics, sensorial and practical life. Other areas are introduction to other languages, music, yoga, geography, and others that stimulate their senses, their curiosity, and their ability to choose (freedom with purpose). The activities promote hand-eye coordination, visual and auditory discrimination, order, and concrete understanding of basic concepts by using two or more senses at the same time. It is amazing that our children do not want to leave our school and although some children need some time to adapt according to their degree of separation anxiety and personality, we help them into a smooth transition that brings them a sense of secuvrity and love!

There have been so many changes regarding how a child is perceived in our society now a day. Unfortunately and unknowingly, we are racing children that become parent dependent in all aspects of their development. We are not only limiting the children's ability to reach their full potential and their inner need for learning and drive to explore, but also limiting their sense of responsibility and independence.

The Montessori Method is an educational approach established by Dr. Montessori over 100 years ago and still proven one of a kind! A child-centered approach based on scientific observations of children from birth to adulthood. In my seventeen years of experience in the pre-school environment, I have definitely been able to see the method working at its best. A child is learning while having fun and in motion. The child is learning the love of learning and the love for books. We have had children with many difficulties academically and socially and I have been lucky enough to see them succeed. This method allows them to try different lessons according to their individual likes and needs. They have learned to use their words expressing themselves correctly, to care about others and their environments, treating the lessons and their classmates with care and respect. They have learned empathy in a mixed classroom where we care about the little ones and help them learn! They have left our school ready and prepared for an amazing future!

It certainly takes a village to raise a child and the parent involvement in working together with the teachers makes the difference. I could only account for a Montessori education and my personal experience but I would definitely recommend finding a place that is nurturing and provides your child with its much-needed academic and social development our children so much yearn and deserve!
